

Public Information Table

ARRL Field Day 2026 — Curtis Memorial Park, Stafford VA — June 28–29

Purpose

The Public Information Table is RVARC's welcome point for visitors to Field Day. It makes amateur radio accessible and inviting to anyone who stops by — from curious neighbors to parents with children to local officials. A staffed, well-stocked table qualifies for a 100-point bonus under ARRL Field Day rules (Section 7.3.4).

Table Location

Position the table at or near the main entrance to the Field Day site — visible from the parking area and easy for first-time visitors to find without wandering through the operating area.

Staffing

- Designate a Table Coordinator responsible for setup, supplies, and the visitor sign-up sheet
- Recruit 2–3 club members willing to take 2-hour shifts as greeters
- Greeters do not need to be technical experts — a friendly, welcoming manner matters most
- Have one or two members available to give informal site tours for interested visitors

Materials Checklist — ARRL Handouts (print from arrl.org/brochures-and-exhibit-materials)

These are free PDFs. Print with RVARC contact info added to the blank side before printing.

- ☐ "What is Amateur Radio?" flyer
- ☐ ARRL Membership flyer
- ☐ Youth & STEM flyer
- ☐ "Serving Your Community" flyer
- ☐ "What is ARRL Field Day" backgrounder (from ARRL Field Day PR Kit)

Materials Checklist — RVARC-Produced

- ☐ RVARC Club One-Pager (history, meetings, website, how to join)
- ☐ "How to Get Licensed" info sheet (study resources, VE exam dates)
- ☐ Visitor Sign-Up Sheet (name / email / phone — for post-event follow-up)

Materials Checklist — Table Setup

- ☐ Table covering or tablecloth
- ☐ ARRL or RVARC banner or sign (if available)
- ☐ Brochure/document stand or organizer
- ☐ Pens (for sign-up sheet)

- ☐ Tent or umbrella if no overhead shade is available

Greeter Talking Points

For members staffing the table who aren't sure what to say:

- "Welcome to RVARC Field Day! Have you seen ham radio before?"
- "For the next 24 hours we're running entirely on emergency power — it's a nationwide exercise."
- "There are about 750,000 licensed ham radio operators in the US. You can get started with a pretty simple test — no Morse code required anymore."
- "Would you like a tour of the station? I can grab someone to walk you through what we're doing."
- "We'd love to stay in touch — feel free to sign our visitor sheet and we'll let you know about upcoming events and exam sessions."

Post-Event Follow-Up

1. Send a brief, friendly email to everyone who signed the visitor sheet
2. Include upcoming meeting dates, the club website (rvarc.club), and information about the next VE exam session
3. Note visitor count for inclusion in the Field Day report submission
